About SIICP

Smiles International Institute of Colo Proctology(SIICP) is a pioneer of innovation in the field of colorectal treatment and surgery. It is built from the minds of like-minded and enterprising surgeons with an aim to end the sufferings of millions with colorectal problems by establishing a World-class center of excellence in Coloproctology. The best practices in the world inspired us to ensure the advance facilities and state-of- the-art technology for the treatment of disorders including the colon, rectum and anus with the help of certified surgeons and medical practitioners.

Master Course in Minimal Invasive Proctology focused on Benign Anorectal Pathologies

Course Outline :

Benign ano-rectal conditions have a major share in a General Surgeon's practice but at the same time could be frustrating due to recurrences. No doubt therefore that there are multiple modalities of treatment for a single condition. New techniques are developing in this field and it may be difficult for a practicing surgeon to keep up with the same. This course aims to revisit the standard techniques and provide an update with newer modalities of treatment. The hall mark of this course would be virtual hands-on training on models with expert faculty.

Course Objectives :

- To understand the relevant surgical anatomy for the management of common benign anorectal problems
- To guide participants regarding approach to a patient with haemorrhoids, Fissure, Fistula in ano and Pilonidal sinus
- To update about the standard and latest techniques in the management of these conditions
- To discuss difficult situations and complications of surgical procedures for ano-rectal problems
- To provide hands-on Surgery training on some of the commonly performed ano-rectal procedures
